3. Video course upload

When uploading a video, a progress bar shows the progress of the upload.

4. Programmes

The summary page now shows activities in the unlock order instead of the order they were selected on the Activity Select page.

5. Accessibility

Accessibility improvements have been implemented to the learner home page on both Desktop and Mobile view.

6. Launch screen

If a course only contains 1 module, Astute will now load the course in a new window instantly instead of guiding the learner to a modules page before launching.

Once a course is passed, a congratulations message will show and offer you your certificate.

Bug Fixes

1. Compliance Reporting – Activity Type renamed "Programme" instead of "Program."

2. Nested Departments now work as expected in Organisation Summary – Departments.

Performance Improvements

- 1. Astute Themes have been consolidated into 2 themes, light and dark. Any client who had a bespoke theme before this update will keep their bespoke theme.
- 2. The default image for Policies has been amended to remove the word "Policy".

- 3. When sending a batch email through Non-Compliant Users within Compliance Reporting. A confirmation message will appear once the email has been sent.
- 4. A tidy-up of the columns, filters and tabs within LXP Report Builder has been performed to help make reports simpler.
